

SARAH ART GALLERY

Overview

A simple e-commerce website for an individual artist to showcase and sell their work.

- **Navigation Menu:**
 1. Home
 2. Shop
 3. Contact Us
 4. About
- React Router Dom used for routing
- CSS Aphrodite used for styling
- GitHub gh-pages used for deploying

- **Home:** Introduction to the Artist and her art.
- **Shop:** Gallery of Sarah's work for users to view and purchase.
- **Contact Us:** A form for users to send a message to the Artist.
- **About:** Details about the Artist, her art, and inspiration

- **React Hooks:** States used to manage data
- **Backend Configuration:** To be Done
- **Contact Us:** Form data to be sent to a database or API.
- **Shop:** Purchase feature to be implemented.

CONCLUSION

Sarah Art Gallery provides a platform for an artist to showcase and sell their work to a wider audience. Future improvements include backend configuration and purchase feature.

Thank You!
